Who We Are

We're a team of professionals from radio, club and events who believe getting the music right for you is **THE** most important thing.

Our collective experience, passion for music and customer service sets us apart from an industry full of DJs playing the same old songs to increasingly empty dancefloors.

What We Offer

Clients have access to our exclusive app which helps you create a playlist from proven floor fillers and highlight any songs they want to avoid, so you feel reassured you'll be getting exactly the kind of music you want without the tracks you don't.

Requests are embraced rather than ignored and we will ALWAYS download anything you've asked for in advance.

Our DJs use identical stylish modern equipment which sets up quickly so you have more time to party. We only provide members from our handpicked team so you will know exactly who will be arriving on the night.

What You Get

When you book Hampshire Event DJs we provide a friendly professional DJ who will play all the music you love without any cheesy chat.

We always have DJs in reserve in case of illness so you will have nothing to worry about on the day of your event.

Included in our standard evening package:

- Our signature set up with sound system and movement lighting.
- Uplighting to style the room to match the colour scheme of your day.
- Access to our app to help you build your perfect party playlist.
- 5 hours of crowd pleasing music complimenting your taste.

What you won't see on the night:

- High level public liability insurance
- Years of shared experience from thousands of events
- Constantly updated research ensuring we play the most familiar tracks.
- A shared library of clean profanity free music.
- Reserve DJs who can deputise in case of illness.

What Else Can We Offer?

DJ & Sax

Our team can bring an Ibiza style vibe to your party working alongside a saxophonist and/or percussion. We can suggest musicians we've worked with before or are happy to work alongside performers you've sourced yourself.

Customised First Dance Edits

Couples often ask for something unique for their first dance. Whether it's a pre-mixed transition from a ballad into a dance mix of your song or a seamless custom edit so you spend less time in the spotlight, our audio production skills can make it happen.

Bespoke DJ Stand Branding

Our signature DJ stands are easy to customise for your day to include your names, the date of your wedding, a hashtag or unique personal design to tie in with your stationary. Many couples have repurposed the Perspex afterwards.

Staging

Our compact 4m x 2m stage is perfect to elevate a band and a popular add-on for corporate events.

Portable Speaker Hire

Holding your ceremony in a remote location without power? We can ensure your music is heard.

Essentials

For a last minute party or celebration where space is limited we offer a more affordable package with a compact set up, reduced lighting proposition and shorter playing time. **This is bookable 8 weeks before your date and strictly subject to availability.**

We do not offer dance floors, photobooths or light up letters but we can introduce you to other quality suppliers who do!
